

# PM6819A MULTIFUNCTION WIRE TRACKER

- Includes a transmitter and a receiver unit
- Direct wire check with RJ45, RJ11, BNC and other type through the attachment
- DIGITAL /ANALOG test: to find metal wires (electricity, telephone, network, etc.) in the ground or wall
- CONT test: continuous detection of conducting wire and identification of breakpoint
- Signal strength adjustable
- Zero calibration for continuity test
- Receiver unit built with torch lamp & earphone jack
- Low battery indication

## Technical Specifications

Digital detection distance: 1000m

Digital detection depth: 0~2m

Analog detection distance: 300m

Analog detection depth: 0~0.3m

High voltage protection: 51Vac

Transmitter: 3.7V/1500mAH lithium battery;  
125x66x30mm, 145g approx.

Receiver: 9Vx1, 6F22;  
210x45x23mmmm, 180g approx.

USB type C port: for charging battery
